

7/16" UNF clearance holes x 4
Plate milled to depth 5mm x 25mm dia concentric to front bolt holes so that bolt heads clear harness end brackets when they rotate.
Material 5/8" ali plate

Caterham 7 series 3 HANS Harness mounting adapter plate.

Check dimensions to fit your car as they may vary. In particular, the lateral location and spacing of the harness fixing holes will vary depending on your particular seat and HANS size.

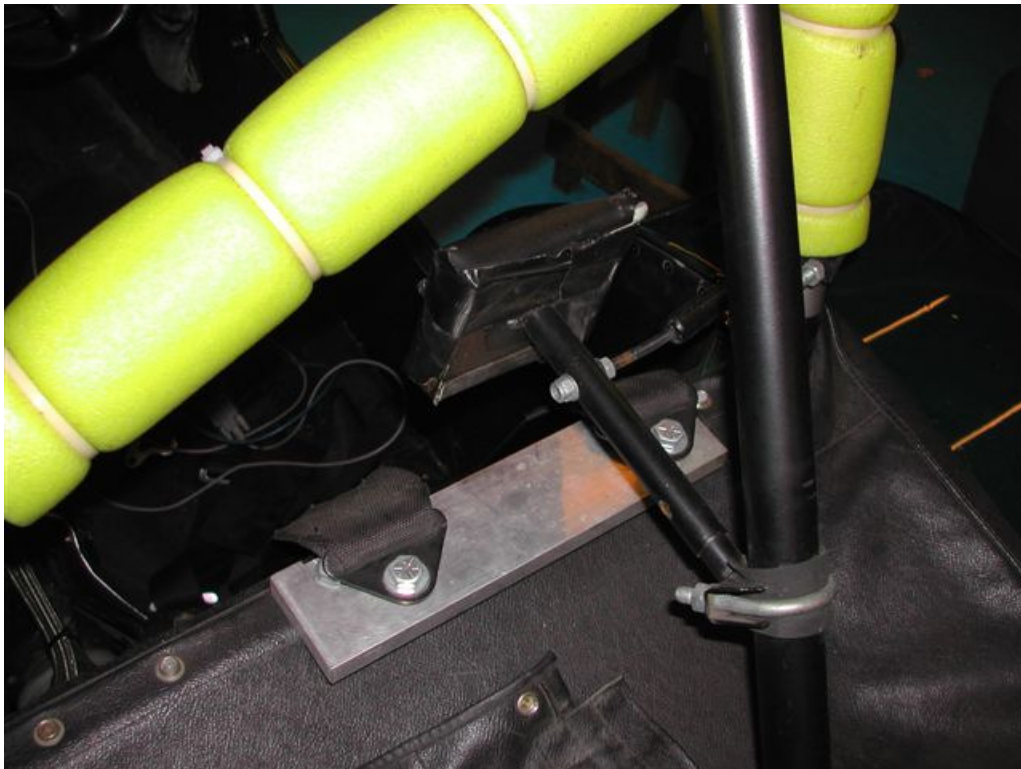

Refer to the FIA HANS fitting guide for specific details

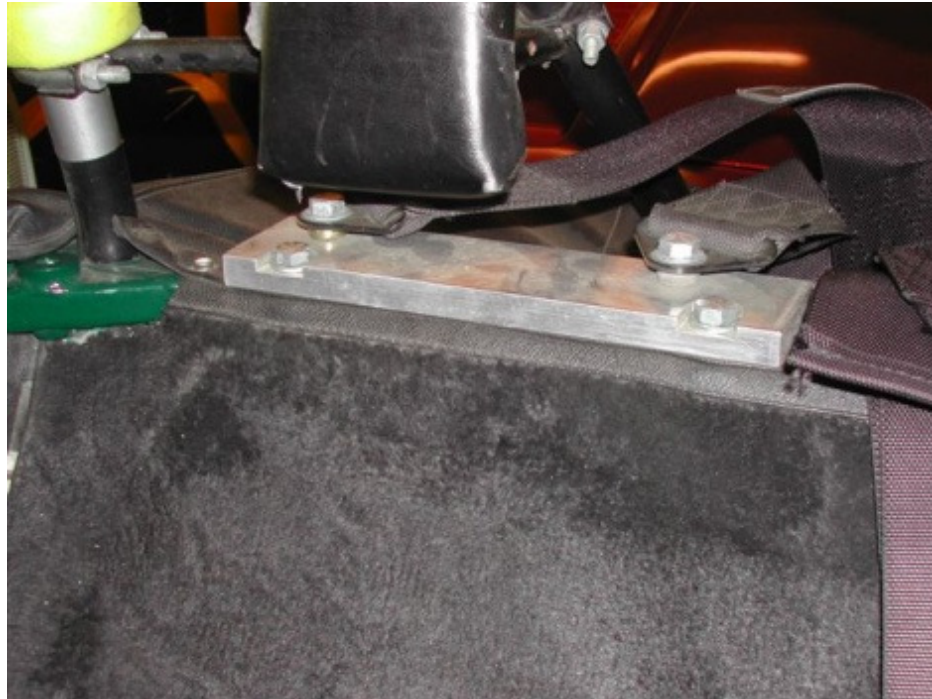

http://www.msar-safety.com/pdf/HANS_Guide.pdf

This mounting plate design is not FIA or otherwise approved and is used at your own risk.

Harness plates secured with washers and nyloc half-nuts on underside of adapter plate.

Note, harness plates pointing backwards towards the boot in these shots!
